Minutes of the June 21, 2004 Monthly Membership Meeting

- President **Tom Killian** called the meeting to order promptly at 7:00PM. 32 neighbors in attendance. After the pledge of allegiance to our flag our evenings agenda was explained and guests introduced.
- The minutes of the May meeting were read by **Tom Killian**. Approved as read.
- **Skip Mitchell** our Treasurer read the Treasurers report. Approved as read.
- Officer **Ron Wolfson** filling in for Officer **Hladik** who is on vacation reported that the police are monitoring speeds on 66th. Street between 38th. Avenue North and 26th. Avenue North. Many speeding tickets have been written in this area. The police say do not give money to the pan handlers who frequent our area because it only encourages them and creates a safety hazard. One pan handler who works the 275 exits makes \$36,000.00 a year tax free.
- **David Oliver** Codes compliance manager city of St. Petersburg was our guest speaker. The codes department has a staff of 45 people, 29 code investigators, 25 of which are assigned to a specific area. There are 4 specialty inspectors, our code investigator is **Ernie Turner**. The average caseload is 250-275 cases per investigator. David suggests that a complaint be called into his office **893-7373**. The complaint is then logged into the computer and given a case number. The number then can be checked on to see the progress of the complaint to completion. You can also log your complaint by computer. David suggests that you do not call the inspector direct. A special code sheet was given out regarding rules for fence heights, cars parking in yards and hedge heights.
- **Kai Warren** President of Roser Park and Chairman of the Council of Neighborhood Associations (CONA) Codes Committee was our second speaker. CONA has drafted a letter to the city asking questions on current code policy. They want to work with the city to improve current codes and have an opportunity to contribute on future codes that are written. Kai explained that Roser Park residents meet for two hours each week to walk the neighborhood picking up trash and meeting their neighbors.
- **Steve Plice** spoke on our Neighborhood Plan. A abbreviated version of the plan was passed out to all in attendance and they were urged to pick out portions that they would like the city to give attention to. The plan is listed on our web site www.JungleTerrace.org Please log on and call me with your suggestions **Tom Killian** 343-2041. Steve also spoke on the

Possible Life Saver

The American Stroke Association is a division of the American Heart Association. In an article published in February of 2003, the ASA says that a 60-second test can help determine whether someone may be experiencing a stroke. According to the article, the three question test has been used by health care professionals as a successful way of determining whether someone may be experiencing a stroke. But a research project by North Carolina-Chapel Hill School of Medicine in Chapel Hill, N.C. looked into the question of whether non-medical professionals could administer the short test and correctly identify the symptoms of a possible stroke. The conclusions was yes, that bystanders could be helpful in determining whether a person is experiencing a stroke. One of the reasons they looked into it was to see whether bystanders could be helpful to a 9-1-1- dispatcher in helping narrow down what is happening to a potential patient. The three questions given to the suspected stroke sufferers were: Can you raise your arms and keep them up? Can you smile? Can you repeat a simple sentence? The study found that when non-medical volunteers were asked by a telephone dispatcher to administer the test, they correctly identified the symptoms 96 percent of the time...especially the raising of the arms and the speaking of a simple sentence. They were less effective in evaluating whether there was facial weakness in a smile, probably because of not knowing what the person's normal smile looked like. Doctors caution that this study does not mean that citizens should try to diagnose stroke symptoms themselves. This study focused on citizens who were being given instruction over the telephone by emergency dispatchers. Any sign of weakness in the face, slurred speech, or weakness or numbness in the limbs should be evaluated by medical professionals immediately. If stroke victims are given proper help within 3 hours of the stroke, the ability to recover is greatly increased.

Indoor Homes!**

We shelter abandoned and homeless cats and kittens - spayed and neutered girls and boys all ages and colors from A (Amber) to Z (Zorro). You have no idea what it is like out there, lonely and hungry, and always watching out for cat-haters and big dogs. Here in the shelter we are protected but searching for our own family who wants to adopt us and be awarded with unconditional love. A strong link between animal cruelty and child and spouse abuse, in fact in 88% of families in which physical abuse occurred animal abuse also was found. So watch for any signs of abuse of animals as a warning sign of possi-

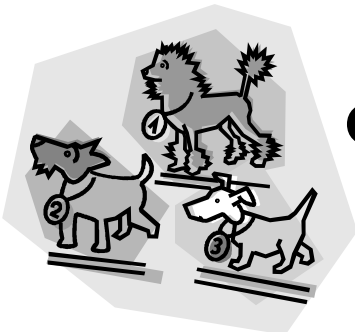

ble violence in a home. Understanding and preventing animal cruelty in your neighborhood could save human lives and break a cycle of violence. For more information or in case you are able to adopt or foster a cat or kitten for a limited time, please, call **Ingrid 821-2192** anytime / leave message.

Summer Excitement at the Science Center

There have been many new and exciting developments going on at the Science Center of Pinellas this summer.

Our summer program is a great success once again. The workshops, which began June 1 and will run until July 23, are filled with children enjoying our many and varied classes. We have more than 1,600 registrations at this date and there are still openings available.

Tech Data Corporation recently donated 25 new Sony computers for use in our computer lab. The computers, complete with LCD flat panel 17-inch monitors, were immediately put to use in our summer workshops and will be a welcome addition to our Senior Scholars program in the fall.

The Science Center has arranged to cooperate with the Florida International Museum. Our Alvan Clark Company 1929 telescope will be part of their "Hubble Space Telescope: New Views of the Universe" exhibit from July 10 until September 19. Posters including Hubble pictures and handouts with information about the display are available at the Science Center.. They, in turn, are promoting our programs and events.

We're in the process of planning 12 Super Saturdays starting in the fall. Our Super Saturday Program, so popular in the past, will be expanded and will include very special events covering a wide range of scientific topics. During the summer, the Science Center is open every Saturday from 10 until 4. Visit our Web site, www.sciencecenterofpinellas.com for more information.

STUFFED MUSHROOMS

By Lois Phillips

1 lb Medium to large mushrooms
 1 1/2 pkgs Cream cheese, softened
 3 Garlic cloves, minced

Clean mushrooms and cut out stems (save for other use or throw out).
 Mince garlic cloves and mix with cream cheese. Stuff mushrooms, generously heaping.
 Can do ahead and refrigerate until ready to bake. Works as a side dish as well as an appetizer. This is truly awesome!
 Bake at 350 degrees for 20 minutes or until lightly browned on top.

If you have leftover cheese, it goes great on crackers, some vegetables and whatever suits your fancy.

Makes about 24.

Weedon Island Preserve

By Bob Miller

I recently took a trip to see the Weedon Inland Preserve. I remember visiting it many years ago and about all I saw then was a dirt road leading to a dirt boat launch area. I was told that it had been improved and I was pleasantly surprised at what I found.

The roads are paved now and the boat (Canoe / Kayak) launch

Fishing from the pier is free. Restrooms are available.

open Wednesday thru Sunday, 10am - 4 pm.

The preserve has two paddling trails. The North trail is about 2 miles and takes about 1½ hours. The South trail is 4 miles long

and takes about 3 hours. Canoe and Kayak rentals are available from vendors outside the Preserve. Many people bring their own canoe or kayak. The Preserve conducts canoe classes twice a month. These classes are free and they are very popular. For information call 453-6500. You will need to call early for reservations.

Inside the Cultural & Natural History you will find a display

area is much improved. There is a long fishing pier with restrooms in the area of the boat launch. I visited on a Wednesday yet there were several people fishing that day. By the number of people there I'd guess the fishing was pretty good.

The Weedon Inland Preserve is approximately 3,100 acres. Most of this area is still in a natural state. 6,600 feet of ADA-accessible boardwalks have been added. There are two 45' high observation towers. There is 2.7 miles of hiking trails that extend through the preserve's upland communities.

A Cultural & Natural History Center was built in 2002. Just inside you will find an information desk with receptionists. This building has a classroom where presentations dealing with natural, cultural, and archaeological history are given. The center is

area with artifacts recovered during a Smithsonian Excavation. Indian tools, arrow heads, and pottery are on display. There are plans to expand the display area over the next year and a half.

Part of the 6600' of ADA accessible boardwalk viewed from the 45' high observation tower..

Judging by the description of the expansion area, it will really be something to see.

To get to the Weedon Island Preserve take Gandy Blvd East from I-275. Go about 3 miles to San Martin Blvd and turn south (right). Go 1 mile and turn east (left) on Weedon Drive NE. which will take you directly to the Preserve entrance.

For information about presentations and programs, call 727-453-6500.

July's Neighborhood Pride Award was presented to David and Gwen McCullough, located at 7740 32nd Ave. N.. They purchased there home 3 years ago and were attracted to it because it is across from Walter Fuller Park, set's on a specious corner lot and the neighbors have well kept homes. The McCullough's continue to improve there home by updating the bath, replacing the roof and installing wood floors. They plan to be long term residents of Jungle Terrace. David & Gwen have many good things to say about all their neighbors and it is obvious that a warm bond has grown among many of them, and a willingness to help out others when needed. Please take the time to drive by and see the beautiful landscape and pride of ownership this home offers.

The McCullough's also wanted to say "It is nice to live in a neighborhood that recognizes residence who show pride in ownership". **Congratulations David and Gwen.**

Coca-Cola

In 1886 a pharmacist named John Pemberton concocted a medicinal syrup, hoping to create a tonic for people who were tired, nervous, or suffering from bad teeth. He marketed it as a tonic for a year unsuccessfully. It was only after the soda was sold as a soft drink that it took off to become the brand it is today.
